Postdoctoral Research Associate in Cognitive Radar

We wish to recruit a Research Associate to work on Cognitive Radar in a project supported by the Defence Science and Technology Laboratory (Dstl). This project addresses a specific challenge in networked sensing under the Dstl programme in Signal Processing in the Networked Battlespace. The duration of the appointment is 8 months and is available with immediate effect.

The project involves analysis and modelling of cognitive radar systems. This will include designing and running computer simulations and recording, analysing and writing up the results as part of a research team.

Candidates should hold, or be about to obtain, a doctoral-level degree and have a first degree in an engineering or physical sciences subject. The post requires substantial research experience in the area of radar systems, signal processing and computer modelling.

The post is Grade 7 (starting salary £33,353 including London Allowance of £2,919).

Interested applicants are encouraged to make informal enquiries to Professor Hugh Griffiths, h.griffiths@ucl.ac.uk, 020 7679 3966.

All applications should be submitted via UCL online recruitment system at the following link:

http://www.ucl.ac.uk/hr/jobs and search for reference 1487083.

If you have any queries regarding the application process please contact Vicky Coombes (v.coombes@ucl.ac.uk) quoting reference 1487083.

Further particulars and details of how to apply are also available at www.ee.ucl.ac.uk/vacancies

The closing date for applications is 25th September 2015
